

To Whom it may concern.

I am a XM Satellite radio user. I pay for this service and like the services they provide. I'm a longhaul truck driver and appicate not haveing my news, music, ect. programing interruded because I go out of range. News, Weather, and Traffic Information is important to me. The normal radio stations can not provide these in the same timily manner XM Radion does. Thank You for any consideration in this matter. Lawrence L. Kissel (OD Greasespot)
